

## Flexible space tailored to your lifestyle

Efficient and organised storage space is a vital requirement for every home. With a wide range of functional and flexible storage systems, Regency will advise, design, supply and install the wardrobe solutions you need for modern living.

We have the range, the experience and the reputation to supply you with wardrobe storage systems, either standard or personalised, that are as flexible and individual as you are.

You can select from fixed or adjustable shelves, drawers or baskets, or compartments for shoes or hats. These specialised storage areas define your hanging space – which are fitted with strong 25mm rods to prevent sagging, even when weighed down with heavy winter garments.

Soft close drawers are also available, as are a variety of handles and cut outs, providing a sleek finish to the internal design of the wardrobe.

## Wardrobe Design Made Easy

# Simply choose from one of our 18 most popular Wardrobe designs.

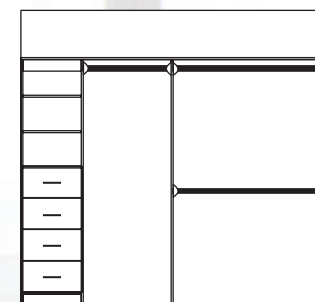

Our designs are available with sliding or hinged doors, all of which can be selected to suit your décor. Sliding doors are ideal to maximise floor space, the room remains uncluttered even when the doors are open. Hinged doors are perfect for larger more spacious areas, where you can open the doors for easy and maximum access. Framed and unframed, glass, mirror, paintable MDF with plain, beaded and routed finishes are all available.
